TechMart Updates: 20.1 Release Highlights

Effective Date: 4/6/20

Updated User Interface:

The upcoming 20.1 Release includes a new, modernized user interface (UI) that includes a streamlined design for site navigation and new product icons to deliver a more efficient and consistent user experience across all JAGGAER products.

Header Navigation Changes:

The header navigation is where users can access their profiles, notifications, action items, active shopping cart, help and other resources. The new UI includes some updates to the iconography. The table below lists the icon along with their functions/access.
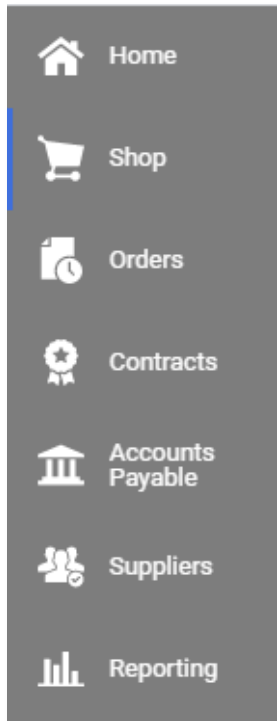

New Navigation Bar:

Menu Item	Function
Search (Alt+Q) 🔍	The search field allows for you to search on various items across the site. You can search on documents such as contracts, search for suppliers or users. You can also search the online searchable help.
🛒 0.00 USD	Provides access to the user's active shopping cart.
♥	Provides access to the Bookmarks feature. Users can create, manage and click on bookmarked pages.
🚩	Provides access to the user's action items.
🔔	Provides access to the user's notifications.
👤	Provides access to the user's user profile.

Side Bar Navigation Changes:

The screenshot below displays the updated Side Bar icons along with access that they provide.

Tip: *Use the arrow at the bottom of the sidebar to display the name of each icon.*

Side Bar Menu Changes:

The screenshot below displays the updated Side Bar Menus.
