Payment Services Introduces

We are replacing ImageNow & WebNow with FileBound for Improved Document Imaging & Invoice Approval Workflow

Here are just some of the benefits:

Streamlined invoice approvals via email means no new software to learn. Open the email, review the invoice, click "approve". Done!

Campus will now have access to paid invoice images. Files will be available via Caltech's RADR system!

Improved workflow notifications. Opt to automatically receive notifications via email when items are paid!

Online Payment Requests, Wire Transfer forms and more. No more shuffling PDF files around for approval signature!

Optical Character Recognition (OCR) means increased efficiencies in Payment Services.
