

Controller's Office

1200 E. California Blvd.
Pasadena, CA 91125

TO: Distribution

FROM: Matt Brewer
Controller

DATE: August 4, 2025

SUBJECT: 2025 Fiscal Year (FY) Closing (October 1, 2024 to September 30, 2025)

As both the end of the current fiscal year (September 30th) and our annual financial audit rapidly approach, it is time to start coordinating our efforts so that we can achieve a clean and accurate cutoff. This memo is intended to provide key dates so that you can plan accordingly.

Procurement Services (Purchasing/Payment Services)

To ensure that any encumbrances, vendor invoices, travel expenses, payment requests, expenditure type changes, invoice splits, etc. are reflected in your FY2025 records, please ensure that all purchase orders and/or invoices and other requests are submitted on time. Please refer to the August 4, 2025 Fiscal Year End closing memorandum from Monica Marquez, Associate Director, Purchasing and Muriel Marroquin, Associate Director of Payment Services, available at: <http://procurement.caltech.edu> for further information.

Payroll

The last payrolls of FY2025 will be posted to OGM as follows:

- Monthly Postdoc, Student Fellowship, and
Grad Assistantship 09 September 24
- Biweekly Payroll 20 September 25
- Monthly Payroll 09 September 24

Throughout the year, some of your department's payroll transactions may have gone to suspense accounts due to the use of invalid PTA's. Please ensure every effort is made to clear any existing suspense items by moving charges to a valid PTA as soon as items appear on reports available to you in the Labor Distribution system. The last day to enter LD corrections for posting in FY2025 will be 9/29/25.

Cash Receipts

The dark period for application of cash receipts in the Accounts Receivable module will begin on Monday, September 29th. All checks should be delivered to the Finance Drop Box at Keith Spalding no later than 5pm on Wednesday, September 24th. Checks received after this time will be accrued for inclusion in the Institute's FY2025 financial statements but will not appear in OGM/OBI until FY2026.

Budgets and Expenditures (Cost transfers/Splits)

The dark period for OGM will begin on Monday, September 29th. The volume of transactions increases significantly at year end and time is needed to process cost transfers and budget adjustments. When using the online cost transfer process that involves the splitting of invoice costs it requires an overnight system process to occur before the cost transfer can be processed for the split items. Therefore, the split component of the cost transfers must be completed by 5 p.m. on September 25th. Cost transfers without splits must be submitted by 5 p.m. on September 26th. Budget modification requests must be submitted by 5 p.m. on September 25th for processing before year-end. Please carefully examine all financial activity in your PTAs in the months of August and September and make any necessary corrections. A staff contact list has been provided for your convenience should you need assistance resolving any situation you may encounter.

On October 1st, please review your FY2025 financial information. If you see any significant errors or omissions, please contact one of us immediately. Although OGM is closed at that point, we can make critical entries to our published financials if necessary.

Interfaces

All uploads from external systems and any web internal charges (WIC) must be entered no later than the close of business on September 25th. Every effort to clear open items on error reports should be made to ensure transactions are correctly uploaded to the Oracle financial system.

Our staff members and I appreciate your support and patience during the year-end closing process. Again, if you have any concerns or questions, please do not hesitate to call me or anyone on the attached list.

Property

Please inform Property Services of any equipment that have:

- (1) already been physically disposed (or removed), or
- (2) is expected to be physically disposed of before September 30, 2025,

only if the organizational unit has not submitted an Equipment Disposal Form Certification form (EDC) or notified Property Services that these items have been or are expected to be disposed of before the end of this fiscal year.

It is important that Property Services is informed of these unreported disposals so that proper measures are taken to account for this disposed equipment before the fiscal year ends.
